1. AirPatrol has probably markets strongest IR LED lights. (we have tested that it works approx 10 meters).
2. AirPatrol can be positioned basically anywhere in the room as long as there is connection (wireless) with indoor unit.
3. AirPatrol is ready to use in 2 minutes.
No need to use screwdrivers or other tools to install this simple but powerful product.
4. Airpatrol regular sms can be in BLOCK/small/Capital/MIXeD letters.
5. AirPatrol is the only SP Lab (Swedish Technical Laboratory) tested and approved controller.
